17. I believe that school and later on university will help me to find a job easily

To sum up, in Turkey the definition of early school leaving in primary school level is not available that we call them continuous absenteeism. So in order to decrease the number of absenteeism in our school, all teachers visit their home to discuss the current situation and possible reinforcements and at the end legal punishments with their parents. Mostly our teachers can easily persuade them to let their children to go to the school. Now approximately we have 48 students like this.
