

CYBERBULLYING in Portugal: Prevention campaigns

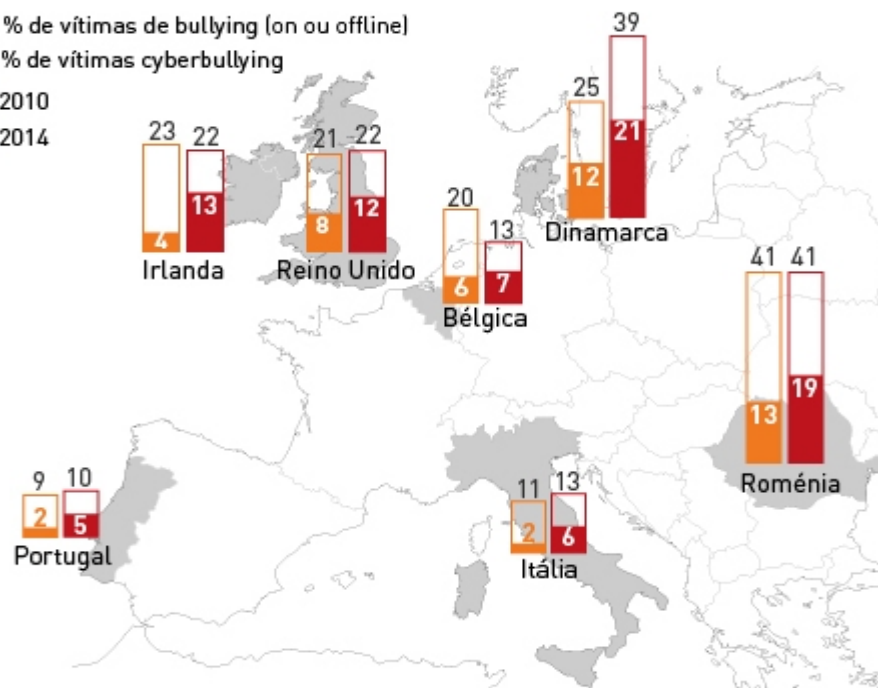

In Portugal...

- 10 to 20% teenagers are victims of cyberbullying
- Snapchat is a social net that has been growing in Portugal...
- ...there have also been several cases of suicide attempts.

CYBERBULLYING

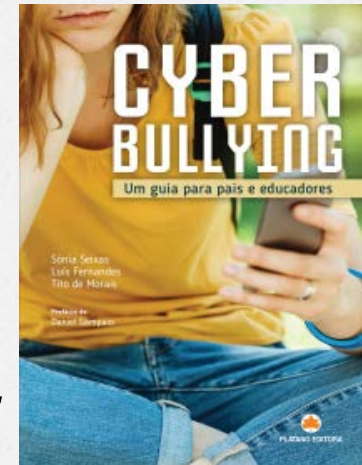

- % de vítimas de bullying (on ou offline)
- % de vítimas cyberbullying
- 2010
- 2014

What is going on in Portugal?....

Three Portuguese specialists published a book about this issue, appropriated to parents and educators.

The general idea is to help, prevent and fight against the abuses of power and the acts of discrimination through the net.

One of the authors of this book, Tito de Moraes, is developing, since 2003, a project in the Internet called “Miúdos Seguros Na.Net”
